How to complain

We hope that most problems can be sorted out easily and quickly, often at the time they arise and with the person concerned. If your problem cannot be sorted out in this way and you wish to make a complaint, we would like you to let us know **as soon as possible** - ideally, within a matter of days or at most a few weeks - as this will enable us to establish what has happened more easily. Complaints should be made;

- ◆ within 12 months of the matter which caused the problem; or
- ◆ within 12 months becoming aware you have something to complain about.

Initially, complaints should be addressed to the **Operations Manager**, or any of the doctors or Practice Manager.

The Complaints procedure will be explained to you and we'll ensure that your concerns are dealt with promptly. It would be helpful if you can give us specific details of what you feel went wrong and what outcome you would like.

What we shall do

We shall acknowledge your complaint within **three working days** and offer to discuss your concerns and agree the way forward with you. We will investigate your complaint and aim to provide you with our findings within a time frame agreed with you.

When we have looked into your complaint, we shall aim to:

- find out what happened and what went wrong
- make it possible for you to discuss the problem with those concerned, if you would find this helpful
- make sure you receive a full explanation and an appropriate apology
- identify what we can do to make sure that the problem does not happen again, in order to improve our services
